September 16, 2021

Dear Colton Community and Parents,

It has been wonderful to see all of the students in our buildings. I am thankful for the welcoming spirit of Colton as I begin this year. I have been impressed to see the friendly students who demonstrate strong character which is a testament to our community.

As I mentioned in the recent school board meeting, the district will be embarking on a long process for the 2021-2022 school year. The long range facility plan survey completed by Straightline Architects. The board will be meeting with Scott Marshall, the principal architect in the next eight weeks. The board and I will host Scott in the coming weeks to share virtually the report with the community.

In order to seek more parent and community input, myself and the district administration would like to invite you to volunteer to join our long range facility team. This team would require a member to commit to attending a monthly meeting with members of the board, staff, myself and other community members.

We have created an online survey for families to provide the district with further opportunities to select members to our team. The survey will be up on the web page.

Sincerely,

Dave Kline
Superintendent
